Surface Management

PLAN OF OPERATIONS MODIFICATIONS APPROVED

Among the Conditions of Approval attached to the Plan of Operations Modification September 15, 2100 approval for the Lisbon Valley Copper Mine was a requirement that Lisbon Valley Mining Company LLC (Lisbon Valley Mining) was not to proceed with expansion of waste dump C east of the cultural resource protection fence, until the Research Design and Data Recover Mitigation Plan, to mitigate to sites impacted by expansion was completed. The data collection and mitigation plan has been implemented and the BLM is waiting for the full report on the findings. The BLM received a Brief Summary Field Report from the cultural resource contractor, which was passed on for Native American Consultation. Through consultation, the Tribes requested a copy of the full report. Though the BLM has further consultation to complete, the work under the mitigation plan is complete. Lisbon Valley Mining Company LLC (Lisbon Valley Mining) has approval to expand waste dump C to cover portions of the two sites (see attached map). Any expansion beyond what is proposed and identified on this map is not authorized at this time. Lisbon Valley Mining must conduct operations as described in the Plan of Operations as modified.

The rationale for this decision are based on the need for Lisbon Mining to continue to mine a valuable deposit of copper under the authority of the mining laws of the United States while ensuring that operations are conducted in a manner that will prevent unnecessary or undue degradation as defined at 43 CFR 3089.5.

Financial Guarantee

The BLM reviewed Lisbon Valley Mining's financial guarantee and considered the modifications and interim reclamation, to determine that the required financial guarantee remains unchanged at \$6,030,060.00 for reclamation of the Lisbon Valley Copper Mine. This financial guarantee is already in place with the Utah Division of Oil, Gas and Mining, and it has been accepted and obligated by the Utah BLM State Office.

Approval of a Plan of Operations by the BLM does not constitute a determination regarding the validity or ownership of any unpatented mining claim involved in the mining operation. Lisbon Valley Mining is responsible for obtaining any use rights or local, state, or federal permits, licenses, or reviews that may be required for the operation.

This decision also constitutes concurrence with Lisbon Valley Mining's use and occupancy of public lands as described in the approved Plan of Operation. Lisbon Valley Mining must maintain compliance with the Use and Occupancy regulations at 43 CFR 3715.2, 3715.2-1, and 3715.5 throughout the duration of the approved Plan of Operations. Concurrence by the BLM on Lisbon Valley Mining's proposed use and occupancy is not subject to State Director Review, but may be appealed by adversely affected parties directly to the Interior Board of Land Appeals as outlined in enclosed BLM Form 1842-1.
